Portfolio: [christheoguipo.github.io/portfolio-website](https://christheoguipo.github.io/portfolio-website)

### **Skills:**

Programming Languages: C#, JavaScript, HTML, CSS, Python, VB.NET, ILE RPG  
Frameworks/Libraries: React, Angular, Node.js, ASP.NET Core, React Native, Django  
Databases: SQL Server, MongoDB, PostgreSQL  
Version Control: Git, Team Foundation Server  
Methods: Agile, Test-Driven Development (TDD)  
Reporting: Crystal Report, DevExpress

### **Professional Experience:**

#### **Lead Software Developer**

Brigada Mass Media Corporation

*August 2015 – March 2021*

- Maintained and optimized backend code in C# using MS Visual Studio and MS SQL for enhanced performance and scalability.
- Developed and managed database applications using technologies such as ADO.NET and MS SQL Server.
- Generated detailed reports using Crystal Reports.
- Collaborated closely with the product team to develop and implement new features.
- Conducted user training sessions to ensure effective system navigation and provided comprehensive user support.
- Managed source code using TFS and performed deployments and release management.
- Project coordination: collaborated with other developers, and project managers to understand and fulfill project requirements.

## **Career Break**

*April 2021 – Present*

- 2021: Family reunification in Germany.
- 2022: Completion of German language and integration course (10 months) to obtain language skills (B1 level) and integrate into German culture.
- 2023: Completion of Full-Stack Web Development Program at CareerFoundry (6 months) focusing on modern web technologies and practices in JavaScript, React, React Native, Angular, Node.js, MongoDB, PostgreSQL and Git.

## **Software Developer**

ICEG Systems Inc.

*September 2013 – July 2015*

- Developed and tested modules for accounting, personnel, and payroll systems using MS Visual Studio (VB .NET) with DevExpress and MS SQL.
- Designed, queried, and managed databases with MS SQL Server and implemented CRUD operations.
- Customized and extended DevExpress components to meet application-specific requirements.

## **Software Developer**

Dole Philippines Inc.

*October 2012 – August 2013*

- Designed, developed, and extensively tested modules for the production system to improve efficiency and reliability.
- Programmed and developed applications using ILE RPG on IBM iSeries systems.
- Integrated ILE RPG applications with other systems and databases to ensure seamless business processes.
- Updated existing RPG programs to meet new business requirements.

## **Data Center Operator**

Dole Philippines Incorporated

*July 2011 – September 2012*

- Monitored data center environment, including servers, network devices, power supply, and cooling systems.
- Performed maintenance tasks on hardware and infrastructure to ensure operational safety and performance.
- Identified and resolved hardware and network issues.

- Managed backup and recovery processes and created detailed documentation.

### **Student-Trainee Programmer**

Dole Philippines Incorporated

*January 2010 - March 2011*

- Trained in ILE RPG programming for AS/400 System and iSeries.
- Gained exposure to various IT tasks, contributing to IT Division's effectiveness
- Assisted in resolving IT issues, improving division's efficiency.

### **Education:**

#### **Bachelor of Science in Computer Science**

Notre Dame of Dadiangas University (Philippines)

2007 – 2011

### **Sample Projects:**

#### **Sales, Collection, and Inventory Management System (OPS)**

**Role:** Lead Developer

**Company:** Brigada Mass Media Corporation

**Description:** Comprehensive software solution for efficient management of sales and collection records, inventory entries, and detailed reporting.

**Technologies:** C#, Visual Studio, MS SQL

**Results:** Improved user efficiency and accuracy by 30% by transitioning from manual to automated.

#### **Movie Vault App**

**Role:** Full Stack Developer

**Company:** Personal project

**Description:** A dynamic web application built with React that allows users to browse a collection of movies, manage their profiles, and create a personalized list of favorite movies.

**Technologies:** React, Redux, React Bootstrap

## **Certifications and Trainings:**

- Full Stack Development Program (CareerFoundry 2023)
- CS50's Web Programming with Python, JavaScript (edX 2023)
- C# Web Development with ASP.NET Core and Angular / C# Unit Testing (tutorials.EU 2023)

## **Language Proficiency:**

German: B1 - Level

English: Proficient

Filipino: Native

## **Interests:**

Open Source Projects

Hiking and Outdoor Activities

Chess
